

AI for Global Goals

Oxford Machine Learning Summer School

OxML 2024

Certificate of Participation

6–9 & 11–14 July | Oxford Mathematical Institute

This certificate is awarded to:

Gianvito Losapio

For attending the **MLx Representation Learning
& Generative AI** track *in person*.

This program offered a comprehensive course covering 22 hours of advanced lectures and practical sessions on machine learning theory in Representation Learning and Generative AI, including Large Language Models and Agents, deep learning techniques, Neural and Behavioural Comparisons Between Humans and Machines, Uncertainty Quantification, Deep Learning in Financial Markets, and Representation Learning and Generative AI in Vision.

Organised by AI for Global Goals
